

# The 6 principles of Project Management

01

VISION AND MISSION

Identifying vision and mission is an essential way to go to complete a project. Draft clear steps to follow and how many people are required for a specific task.

02

BUSINESS OBJECTIVES

Set up 2/3 objectives to help the organization to save time and resources

03

STANDARD OF ENGAGEMENT

Clarify people and relative tasks and roles

04

INTERVENTION AND EXECUTION STRATEGY

Ability to identify and resolve issues that will occur during the process

05

ORGANIZATIONAL ALIGNMENT

Communication within the team and stakeholders is the key for success.

06

MEASUREMENT & ACCOUNTABILITY

Top performers will be rewarded and recognised; while those needing improvement, will be trained.
